# Mounting Options

Our diverse mounting options allow you to create a safer space and increase privacy in nearly all work environments.

## Table of Contents

# Freestanding Mount

## Key Information

- Sits on top of the worksurface
- Removable for easy relocation
- Easy Assembly

## Details

*This freestanding mount stands alone on top of the worksurface and does not have to be screwed into the worksurface or screen. Easily relocated where ever needed.

*Base dimensions: 2"W x 7 3/4"L

# Edge Clamp with Knob

## Key Information

- Mounts to edge of the worksurface
- Removable for easy relocation
- Adjustable knob

## Details

*The edge clamp with knob is a removable mount which clamps to the edge of a worksurface and is secured by tightening the knob. There is no need to screw into the worksurface or screen. The top piece can also be rotated 90 degrees and mounted.

*Max Opening: 1 9/16"

# Desktop Mount & Panel Top Mount

**Key Information**

- Mounts to top of the worksurface or the top of the cubicle panel
- Permanent mount
- Easy Assembly

**Details**

*The desktop/panel mount is secured to the top of the worksurface or top of the cubicle panel by using two screws to fasten to the worksurface/panel for a permanent solution.

*If using as a panel extender, the panels must be at least 1 1/2" thick.

# Edge Mount

Alternate removable ▶
mounting option

## Key Information

- Mounts to edge of the worksurface
- Screws into worksurface for a permanet solution
- Alternate removable mounting option available

## Details

*The edge mount is a permanet mount which clamps to the edge of the worksurface and is secured by screwing into the bottom of the worksurface. This mount can also come with an alternate attachment option using clamp screws to allow the mount to be removable.

*Mount Opening: 3/4"

# Double Edge Mount

**Alternate removable** ▸
**mounting option**

## Key Information

- Mounts between two worksurfaces
- Screws into worksurface for a permanet solution
- Alternate removable mounting option available

## Details

*The double edge mount is a permanet mount between two worksurfaces clamping at the edges. It is secured by screwing into the bottom of the worksurface. This mount can also come with an alternate attachment option using clamp screws to allow the mount to be removed.

*Mount Openings: 3/4"

# Removable Panel Mount

## Key Information

- Clamps to top of cubicle panel
- Adjustable to thickness of panel
- Able to detach
